GENERAL INFORMATION

Under San Diego Municipal Code §22.3004(a), any contractor desiring to bid as a prime contractor for City of San Diego public works projects must be pre-qualified for financial resources, technical expertise, experience, a satisfactory record of past performance and compliance with the law. This renewal questionnaire covers a contractor who intends to bid as a prime contractor on contracts valued at \$1,000,001 or more. Pre-qualification is effective for two (2) years from the date of the initial approval letter and is renewable every two (2) years thereafter. To renew their pre-qualification, contractors must submit a completed Pre-Qualification Program Renewal questionnaire, their current financial statements, and an updated bond letter for review and scoring.

The range of projects on which the prime contractor will be pre-qualified to bid is determined by the type of financial statements submitted. Please see the table below:

Contract Price Range	Financial Statements Type
\$1,000,001 - \$15,000,000	REVIEWED Financial Statements
\$15,000,001 and Above	AUDITED Financial Statements

These documents are used as the basis for rating prime contractors with respect to the size and scope of contracts which contractors are qualified to bid. The City of San Diego reserves the right to check other available sources. Omission of requested information can result in automatic disqualification.

The pre-qualification program renewal documents are not public records, subject to the Public Records Act, and are not open for public inspection. All information provided will be kept confidential to the extent permitted by law. The City of San Diego reserves the right to reject any and all program renewal questionnaires and to waive any irregularities in the information contained therein.

Each program renewal questionnaire, and any other submitted pages, must be signed under penalty of perjury by an individual who has the legal authority to bind the contractor on whose behalf that person is signing. If any information provided by a contractor changes, the contractor must immediately notify the City of San Diego and provide updated, accurate information in writing and under penalty of perjury.

The pre-qualification program renewal questionnaire consists of three (3) sections, all of which are used to review the prime contractor:

Section I consists of questions relating to the firm's organization structure, including history of business and organizational performance, licenses, disputes and legal issues in the last two (2) years. A score of 76% or higher is required to pass.

Section II consists of questions relating to the firm's compliance with regulatory agency requirements with respect to safety, workers compensation, prevailing wage, apprenticeship requirements and equal employment opportunity in the last two (2) years. A score of 73% or higher is required to pass.

Section III consists of a list of reference interview questions relating to the firm's administration, and performance on prior completed construction projects completed in the last two (2) years. A score of 72% is required to pass.

In summary, the prime contractor must successfully pass all three sections to be considered for pre-qualification.

The completed pre-qualification program renewal packet, consisting of the Pre-Qualification Program Renewal questionnaire, current bond letter and current financial statements must be sent to:

City of San Diego
Engineering and Capital Projects Department
